

TALAL NADEEM AWAN

Street 40 • Islamabad • Talal.awan20@gmail.com • +92-336-9334440

Professional Profile

Cybersecurity student and full-stack developer with hands-on experience in penetration testing, vulnerability scanning, and building custom security tools. Skilled in Python, Java, Node.js, and backend API development, with a dedicated focus on achieving **ISO 27001 Lead Implementer** status to bridge the gap between technical defense and enterprise-grade compliance governance. *Want to see the matrix I've been building? Check out my digital playground at <https://talals-portfolio.vercel.app/>. For the rest of my technical arsenal and code repositories, feel free to snoop through my GitHub at <https://github.com/TalalNA12>.*

Education

COMSATS University Islamabad
BS Cybersecurity, 3.06

Islamabad, PK
2027

Westminster Academy
A-Levels, 1A*, 1A

Islamabad, PK
2023

Experience

Inara Technologies
Cybersecurity Intern

Islamabad, PK
Jul 2025 – Sep 2025

- Acquired hands-on experience with advanced network security tools including Nmap, Nessus, and Ettercap/Bettercap.
- Explored web security in depth utilizing BurpSuite, PortSwigger Labs, and DVWA, with a strong focus on OWASP Top 10
- Developed and maintained CI/CD pipelines (GitHub Actions) to automate security linting and vulnerability scanning, reducing manual overhead for 6–8 red-team style projects.

Leadership & Activities

Widad
Co-founder and Lead Executive

Islamabad, PK
Feb 2026 – Present

- Architected the foundational structure and operational strategy of a 5-member executive team dedicated to charitable logistics for orphanages and eldercare facilities.
- Executed on-the-ground volunteer drives, directly managing the physical distribution of resources to local orphanages and eldercare facilities.
- Coordinated digital outreach and awareness campaigns (@widad.circle on Instagram and Threads) to sustain ongoing support pipelines.

Skills & Interests

Technical: Python, Java, C++, 8086 Assembly, JavaScript (React, Next.js, Node.js), FastAPI, HTML/CSS.

Infrastructure & DevOps: CI/CD (GitHub Actions), Docker, Kubernetes, AWS (EC2, S3, Lambda, IAM), IaC (Terraform/ThreatLens), PostgreSQL, MongoDB.

Compliance: ISO 27001 (Lead Implementer Candidate), NIST, OWASP Top 10.

Security Platforms: TryHackMe (Active engagement, completing offensive security paths, top 25%), PortSwigger Web Security Academy.

Language: English (Fluent), Urdu (Native)

Interests: Cybersecurity awareness content creation, survival horror game development, macro-tracking and fitness, strategy gaming.
